b2b customers

Business success is defined by numerous factors and circumstances. But only strong and reliable partnerships backed by expertise and technology can guarantee the infinite growth.”

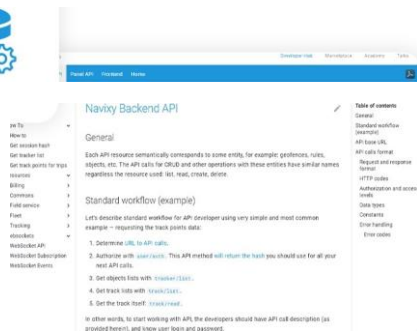

## MORE THAN A PLATFORM

Geokall-iot provides a complete business ecosystem to help you create versatile and successful tracking solutions for mobile resource management.

### KNOWLEDGE BASE

Instant access to user guides, technical documentation, market insights and frequently asked questions.

### DEV HUB

Design and build custom solutions.

Integrate with CRMs, ERPs and any 3rd party applications through API and SDK.

### COMMUNITY

Global partner community of experts, developers and vendors. A single space for networking and sharing ideas.

### MARKETPLACE

Shop extensions and add-ons to meet customer expectations.

# PARTNERSHIP

Distribute your in-house solutions worldwide.

xerox

JOHN DEERE

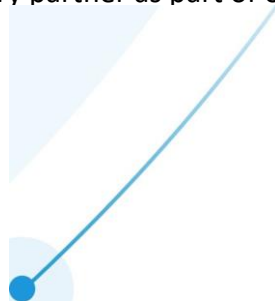

## For channel partners

Becoming our authorised partner and distributor opens enormous capabilities for creating and delivering industry agnostic solutions to the leading mid-size businesses and enterprises all around the world.

## MOVING FORWARD HAND TO HAND

A fusion of knowledge and desire to create an outstanding GPS tracking platform gave birth to Geokall-iot in 2019. Since then we've been steadily building our global partner network and evolving into the ecosystem. Today Geokall-iot is a global company with offices in USA, Mexico, Brazil and Russia. However we are still committed to family-business values. We treat each team member as a partner and every partner as part of our big international team.

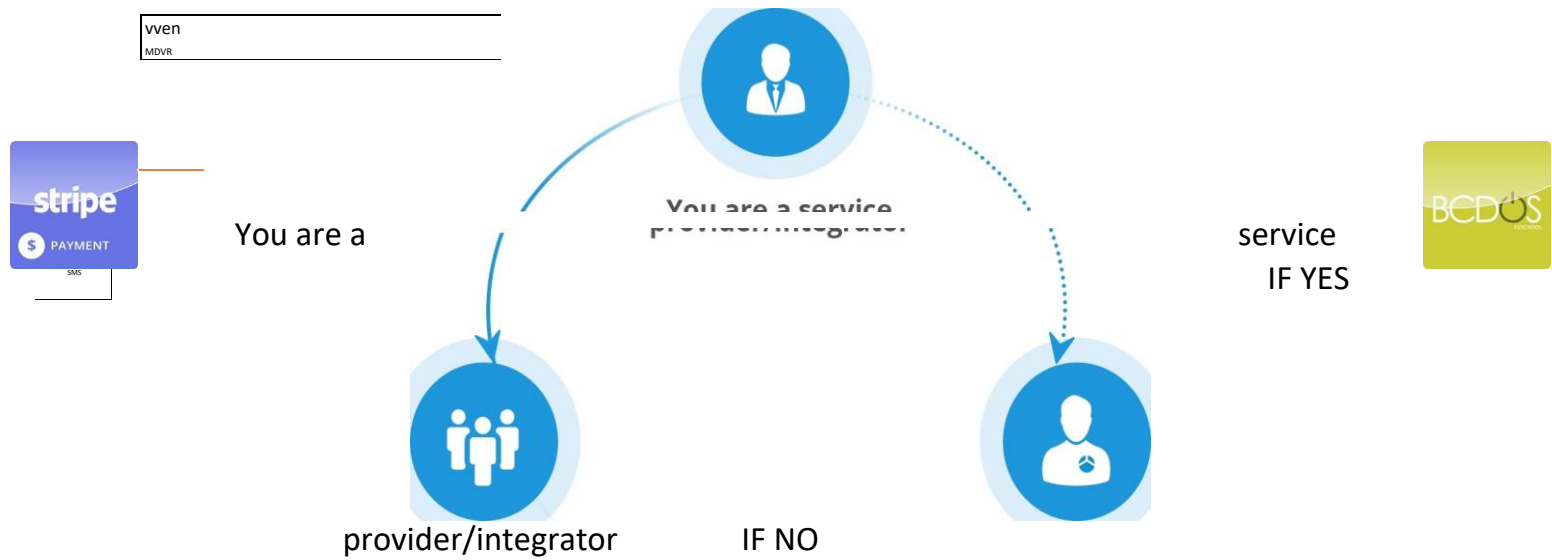

# BUSINESS JOURNEY

## Working with us

Geokall-iot is committed to help businesses around the world accelerate productivity of their assets and mobile resources through the adoption of location based solutions.

You have in-house Our partner will take development team  
care of you

IF NO
